

# Love Without You

Taproot

Well, I've never known perfection  
But I've seen it's reflection and it...  
It reminds me of you!  
And I guess I need protection cause I'm  
Losing my direction without you  
It's sad but it's true...  
I'm in love without you

Thousands of days  
And thousands of miles  
Multiplied by two  
Infinite memories and smiles  
Shared by me and you

Time will never pass us by  
Cause the butterflies are still alive  
And inside your eyes

Well, I've never known perfection  
But I've seen it's reflection and it...  
It reminds me of you!  
And I guess I need protection cause I'm  
Losing my direction without you  
It's sad but it's true...  
I'm in love without you

Mountains we've paved  
And fountains so wild  
Portraits we once knew  
Your family's blessings  
And sacred child  
Helped me to pull through

Time will never pass us by  
Cause the butterflies are still alive  
And inside your eyes

Well, I've never known perfection  
But I've seen it's reflection and it...  
It reminds me of you!  
And I guess I need protection cause I'm  
Losing my direction without you  
It's sad but it's true...

Well, I've never known perfection  
But I've seen it's reflection and it...  
It reminds me of you!  
And I guess I need protection cause I'm  
Losing my direction without you  
It's sad but it's true...  
I'm in love without you
