

Shine

Taproot

Fly so high like a star
I'm straight up representin' the spirit
In the world that keeps on forgettin'
The meaning of life
All things are dancin' in the rhythm of eternal harmony
Astrology the portrait of wisdom
Across the skies is full of truth
Fly so high
Like a star
I'll shine every night with you by my side
Feels so right
All alone in a world so cold
No, I'm not alone in a world
So cold
