

Hey there, long time no care from you
Stranger things happen I guess have to?
You've dragged me down again
And believe what you pretend, no...

You'd say, it's the victim I play in this game
I'd say, that I can't win either way, no
Cliche, but I need to break these chains
No more pain, I stayed
But it didn't matter either way, no!

Ready?

Hey there, long time nothing to prove
Claiming things blaming that just weren't true
You framed my crown content
No matter who you affect, no!

You'd say, it's the victim I play in this game
I'd say, that I can't win either way, no
Cliche, but I need to break these chains
No more pain, I stayed
But it didn't matter either way, no

Ready?

It's the victim in pain!
Is the victim I play!
It's the victim in pain!
Is the victim I play!
It's the victim in pain!

You'd say, it's the victim I play in this game
I'd say, that I can't win either way, no
Cliche, but I need to break these chains
No more pain, I stayed
But it didn't matter either way, no

You'd say, it's the victim I play in this game
I'd say, that I can't win either way, no
Cliche, but I need to break these chains
