

We Control Our Destiny

Taproot

My heart compels
Cries itself to sleep every night and day
Because I'm the epitome
Of pity me
For them I'm free
For them I'm
Free but not for me

For everlasting
It's a progressing
Isn't a blessing from every way
Maybe tomorrow will be my day
To take the rings but who's to say

Aside from me
But who's to say
Aside from me
I tried the blame

Oh
I'm freezing in cold
This world's being sold
Can't do what we're told anymore
We control our destiny

The liquid sorrows falling down
Sheep wearing black and grey's
Look like eternal has no memories
Our souls of those steaming diesel flames
Every fucking day I say I'll change

I'm just a stain on the floor
I'm just forgetting rather before
Shake it take it take it away from my energy

But who's to say
Aside from me
Losing my name
I'll be no good

Oh
I'm freezing in cold
This world's being sold
Can't do what we're told anymore
We control our destiny

Only I have the power to bring me down

Oh
I'm freezing in cold
This world's being sold
Can't do what we're told anymore
We control our destiny
We control our destiny
We control our destiny
We control our destiny
