

## An Empty Dream

Tarja Turunen

Your scent became again  
Vanishing memory  
Repeating lace of pain  
Why this endless misery?  
As our oblivion  
This void will hunt you  
Can't be forgiven  
Our love, the tears for two.

Oh I wish to reach your heart  
Life is just an empty dream  
We will never be apart  
Take me home forever.

Trough time I'm in control  
Whispering cruelty  
Today you have my soul  
Who is who in this puppetry?  
Lost our connection  
Feelings I once knew  
Crying for meaning  
All alone, the death for two.

Oh I wish to reach your heart  
Life is just an empty dream  
We will never be apart  
Take me home forever.

"I'm another mess  
When I alive  
How long will I turns?"

Oh I wish to reach your heart  
Life is just an empty dream  
We will never be apart  
Take me home forever, ever!

Oh I wish to reach your heart  
Life is just an empty dream  
We will never be apart  
Take me home forever.
