

# Dark Christmas

Tarja Turunen

Cold earth sleeps  
Underneath a flaming northern sky  
The snowy trees gently weep  
This dark Christmas time

Dark Christmas  
Dark Christmas

Diamonds glow fill my eyes  
Glorious polar night

Dark Christmas

Don't hide the light that shines in you  
Let the brightest star of Bethlehem  
Make your darkness fade away  
Believe the power of your dreams  
You're the Pharos in the night  
Guiding us, you'll lead the way

Snowflake falls, warms my heart  
Memories call me home  
Silence hauls, fears depart  
I'll never be alone

Don't hide the light that shines in you  
Let the brightest star of Bethlehem  
Make your darkness fade away  
Believe the power of your dreams  
You're the Pharos in the night  
Guiding us, you'll lead the way
