

Goodbye Stranger

Tarja Turunen

Let it go, let it go!
Why crave to hold your breath?
Take it slow, take it slow
There is no life in death
It is time, it is time
To leave the past behind
And face yourself alone in the raw

Is it so? is it so?
You can't trust your wings
Who will know? Who will know?
What tomorrow brings
When you risk it all
You'll get a chance
To kill the pain

I took the dust and gave my whole
I poured the gold into your soul
I found the beauty in the storm

Going where the sun don't shine at all
Diving through the darkest thoughts unknown
Free fall your heart, loose everything
Old things depart, skies opening
Goodbye stranger!

Can you see? Can you see?
Your ill resistance break
Let it be, let it be
What was asleep is awake
Carry on, carry on
Your solitary quest
The journey once started will never rest

How it feels? How it feels?
For you to breath again
Keep it real, keep it real
The rush of gold in your veins
When you risked it all
You got the chance
The pain is gone

I took the dust and gave my whole
I poured the gold into your soul
I found the beauty in the storm

Going where the sun don't shine at all
Diving through the darkest thoughts unknown
Free fall your heart, loose everything
Old things depart, skies opening
Goodbye stranger!

Going where the sun don't shine at all
Diving through the darkest thoughts unknown

Going where the sun don't shine at all
Diving through the darkest thoughts unknown

Free fall your heart, loose everything
Old things depart, skies opening
Goodbye stranger!
