

Healing

Tarrus Riley

Staring at these walls
Wrestling with my thoughts
Is Jah still with me?
Isolated and quarantined
Still I believe that Jah is with me
What will this new world be like
Without a simple hug
So tight and warm and snug
What will this new life be like
Without a simple kiss
Jah knows I'd hate to miss
Love is the vaccination (Oh, Jah love)
Stronger than medicine
Could never be a sin
Jah-Jah, please intervene
World leaders trying to lead
You've got the remedy

Healing (Healing)
We need a healing (Healing)
Healing (Healing)
Can't you feel it?
Oh, healing (Healing)
We need a healing (Healing)
'Cause the world is bruised and bleeding

What will this new world be like
Without being with your friends
And the family gathering
What will this new life be like
We have to separate
Can't even celebrate
Love to every nation
Stronger than medicine
Could never be a sin
Jah-Jah, please intervene
[?] and big machines
But you've got the remedy

Healing (Healing)
We need a healing (Healing)
Healing (Healing)
Can't you feel it?
Oh, healing (Healing)
We need a healing (Healing)
'Cause the world is bruised and bleeding
The world is bruised and bleeding
The world is bruised and bleeding
The world is bruised and bleeding
World is bruised and bleeding

(Healing, healing)
We need the healing (Healing)
Bring on the healing (Healing)
We need the healing (Healing)
Bring in the healing (Healing)
We need it (Healing)

I feel it (Healing)
We need it (Healing)
I need it (Healing)
You need it (Healing)
