

Altitudes

Tash

It ain't bitter sweet just bitter
Say goodbye to the one you wanted to [?]
Clouds in motion, watching like the [?]
Strangely distance seems to bring us close together
But oh

Half the time, half the time
You don't make it much easier
For me to love you, for me to love you, baby

I don't need space
And I don't need face
And I spend my days caught in this haze
'Cause I'm in love with you
But the distance is like altitudes

They said time would fly, but it doesn't
Every minute I'm apart from you feels like a dozen
But miles of clouds and oceans mean nothing (mean nothing)
Darling I'm still sending you all my loving
Yeah 'cause

Half the time, half the time
You don't make it much easier
For me to love you, for me to love you
Yeah 'cause

I don't need space
And I don't need face
And I spend my days caught in this haze
'Cause I'm in love with you
But the distance is like altitudes

I'm in love with you, despite the altitudes
I'm in love with you, despite the altitudes

I don't need space
And I don't need face
And I spend my days caught in this haze
'Cause I'm in love with you
But the distance is like altitudes
