

# Dopamine

Tash

You feel the way I feel and I  
I know it when I feel your eyes on me  
You know I've been fantasizing (fantasizing)  
So remember when I'm in your company

I'm feelin' like I  
I'm feelin' like I

You know I've been feelin' like I  
There's too many things I could say  
When I'm with you I feel a whole new way  
Slippin' inside what they say  
I wanna stay (I wanna stay)  
I wanna stay by this (stay by this)  
I'm in a state that's not blind

You feel the way I feel and I  
I know it when I feel your eyes on me  
You know I've been fantasizing (fantasizing)  
So remember when I'm in your company

I'm feelin' like I  
I'm feelin' like I

What's the point of mention that?  
We both know what's goin' on  
Now I'm waitin' for exact seconds, I can't tell if we'rebettin'  
' on  
Sure I can never get it done  
Sure I did, but I worked it wrong  
You know that my love for you is never complicated  
You know that the oxytocin is reciprocated  
You know how I feel, how I feel

You feel the way I feel and I (and I)  
I know it when I see your eyes on me (when I feel your eyes)  
You know I've been fantasizing (fantasizing)  
So remember when I'm in your company

I'm feelin' like I  
I'm feelin' like I  
I'm feelin' like I
