

Lil' Love Song

Tash

Oh, yeah
Ya, ay, uh
Uhh
Yeah-hey
(Lil' love song)
No, ya
(Lil' love song)

I rest my case
I'm just not the same, when we're face-to-face
I can't escape your maze
I'm just slowly going insane
'Cause I've, I've lost my ways
And I can't begin to explain
And I've turned my life to shade, I

No, I'm not capable of givin' up just yet
'Cause it's gonna to take much more than the voices in my head
Oh, I could leave it all and try to fix this mess
But I'm not lettin' go of what my heart does best

So my lil' love song, tell me
Oh, I just can't get over you
But I'm trying to, but it's hard to do
Can't help the way I'm missin' you
My lil' love song, tell me
Oh, I just can't get over you
But I'm trying to, but it's hard to do
Can't help the way I'm missin'
You oh, you oh
Yeah-hey

I chose to chase the one thing I can't obtain
So I guess I can't complain
'Cause there's nothin' left to say
I just hoped for more then to end up where I was before
Don't want to be washed up on your shore
To face the aftermath of the storm, I

No, I'm not capable of givin' up just yet
'Cause it's gonna to take much more than the voices in my head
Oh, I could leave it all and try to fix this mess
But I'm not lettin' go of what my heart does best

So my lil' love song, tell me
Oh, I just can't get over you
But I'm trying to but it's hard to do
Can't help the way I'm missin' you
My lil' love song, tell me
Oh, I just can't get over you
But I'm tryin' to, but it's hard to do
Can't help the way I'm missin' you

You, oh, oh, oh
Ay
You-oo, oh
Yeah-ay, uh

(No, no, no, no babe)
(No, no, no, no babe)
(No, no, no, no babe)
(No, no, no, no babe)
No (No, no, no, no babe)
No, oh, no, no babe
No, no, no, no babe
No babe, oh

So my lil' love song, tell me (Tell me)
Oh, I just can't get over you (Uh)
But I'm trying to, but it's hard to do (What to do)
Can't help the way I'm missin' you
My lil' love song, tell me (So baby [?])
Oh, I just can't get over you
But I'm trying to, but it's hard to do (Say I'm tryin' to)
Can't help the way I'm missin' you

You-oooh
Oh, yeah
