

# Loverboy

Tash

Oh, lover boy  
Why are you acting so quiet?  
Boy, I know you're shying away  
Lover boy, won't you just speak your mind?  
Boy, don't be so afraid  
Lover boy, you know I know about you  
You know I know, don't you?  
Oh, don't you? Don't you?

Well I can read your mind, I do it all the time  
So don't go saving all the words  
You try to save for different days  
Boy, you should just say it all to me (to me)  
To me, to me, to me  
To me, to me, to me  
To me, to me, to me

Oh, troubled boy  
If you just opened up  
Then you wouldn't be caught in this trouble, boy  
Stop pretending you don't get worked up  
When I'm talking to other boys  
You know I know about you  
You know I know, don't you?  
No, don't you? Don't you?

Well I can read your mind, I do it all the time  
So don't go saving all the words  
You try to save for different days  
Boy, you should just say it all to me (to me)  
To me, to me, to me  
To me, to me, to me  
To me, to me, to me

Lover boy, why you do this to me?  
Lover boy, why you do this to me?  
Lover boy, why you do this to me? Mmm

Well I can read your mind, I do it all the time  
So don't go saving all the words  
You try to save for different days  
Boy, you should say it all to me (to me)  
To me, to me, to me  
To me, to me, to me  
To me, to me, oh, to me

Lover boy, my lover boy  
My lover boy
