

New Thing

Tash

I got a new thing, let me be the voice of reason for you
I got a few things, I've been dying to share since I first saw
you

Boy just listen to your heart like I do
There's no reason to be hesitant
You should listen to your heart's desire to
Let me inside your mind boy
Let me be the one cause I get it

Here's a new thing, here's a new thing
It's a good thing, it's a rare thing
Here's a new thing, here's a new thing
It's a good thing, hold onto it
Here's a new thing, here's a new thing

You got a new thing, all you gotta do is tell me what feels right
We got a new thing, let me be the one who you confide in

Boy just listen to your heart like I do
There's no reason to be hesitant
You should listen to your heart's desire to
Let me inside your mind boy
Let me be the one cause I get it

Here's a new thing, here's a new thing
It's a good thing, it's a rare thing
Here's a new thing, here's a new thing
It's a good thing, hold onto it
