

Serotonin

Tash

Dire, when I'm home alone and wishing you were lying
When you said you had to go, I need your love and affection
When I'm with you boy, my heart could never tire

He calls me up, pulls up outside the front
I feel like I'm above, got my dose of serotonin
When he picks me up, Sunday best all dressed up
I feel like I'm above, got my dose serotonin
Oh when he calls me
Oh when he calls me up
Serotonin, when he calls me
Oh when he calls me up, my dose of serotonin

Desire, when I see you from afar my heart's on fire
Wanna get to know you, I need your love affection
When I'm with you boy, my heart could never tire

He calls me up, pulls up outside the front
I feel like I'm above, got my dose of serotonin
When he picks me up, Sunday best all dressed up
I feel like I'm above, got my dose serotonin
Oh when he calls me
Oh when he calls me up
Serotonin, when he calls me
Oh when he calls me up, my dose of serotonin
Oh when he calls me, serotonin
