

# Supersonic

Tash

Mmh yeah

Forget the logic  
One minute I'm so assured I could float, oh yeah  
I'm supersonic, navigating  
The trajectory afar

I had to part, it took me some  
Had to do things on my own  
Without grievance or believing  
That good things are possible  
No space for feeling  
I was incapable  
If you're seasoned don't be leaving  
All your baggage with me

Leave it all, leave it all  
Leave it all  
Turn away from the lows  
Leave it all

Mmh, yeah  
Ah yeah  
Oh yeah

Allow the cosmic  
Revelation to take full control, oh yeah  
You got supersonic powers baby  
Manifest it and it's yours

I had to part, it took me some  
Had to do things on my own  
Without grievance or believing  
That good things are possible  
No space for feeling  
I was incapable  
If you're seasoned don't be leaving  
All your baggage with me (all your baggage with me baby)

Leave it all (leave it all), leave it all  
Leave it all  
(Leave it all)  
Turn away (turn away) from the lows (from the lows)  
Leave it all (leave it all)

Yeah  
Leave it all  
Babe  
Supersonic powers baby  
Yeah
