

# Sympathy

Tash

I never thought you'd care  
But what a fickle place I've been in  
Failed to understand I needed (I needed)  
Someone who validates my feelings, oh

I maxed out, I found love with no doubt  
I felt numb like no one else  
Who'd've thought things turned out?

You got sympathy, you got sympathy  
Even listening, you'll sing with me  
[?] when you hold me  
When the rug's pulled from right under me  
You got unwavering empathy  
And you know what to say to me  
You have seen the worst of me  
Don't know why you'd stay with me  
Stay with me, ah

I wasn't quite aware  
Of what a livid place I'd been in  
Now love has a whole new meaning  
You care to validate my feelings

I maxed out, I found love with no doubt  
I felt numb like no one else  
Who'd've thought things turned out? (Who'd've thought, baby?)

You got sympathy, you got sympathy  
Even listening, you'll sing with me  
[?] when you hold me  
When the rug's pulled from right under me  
You got unwavering empathy  
And you know what to say to me  
You have seen the worst of me (You know)  
Don't know why you'd stay with me (Don't know why you'd stay with me)  
I don't know why you'd stay with me

Don't know why you'd stay with me, yeah  
Don't know why you'd stay with me
