

## The Church I Grew Up In (Reprise)

Tasha Cobbs

Whoa, woo  
His church is still alive  
And if you're lookin' for freedom, it's here  
If you're lookin' for healing, it's here  
If you're lookin' for deliverance, it's here

Ohm the church is still alive  
I wish the church would open up your mouth  
And sound an alarm, sound an alarm that we're still here  
We ain't going nowhere  
We're takin' back our schools  
We're takin' back our neighborhoods  
We're taking back our land, yeah  
We're taking back our authority

You can shine a light on me  
Church is alive today  
We know that it is, so keep telling your kids  
There is healing in these walls  
Oh I feel that, y'all  
There's still angel's dancing in these halls, oh there's angels  
here  
If it's a Wednesday night, a Sunday morning, you don't need much  
'Cause Jesus loves it  
If you wanna know why I am the way I am  
It's the church I grew up in
