

Good Things

Tasha Layton

I can't see the outcome
From where I stand right now
How could I ever outrun
The shadow of my doubt

That says I'm not good enough
Or worthy of Your heart
But if You hold my forever
Hope is never too far

I know that You have good things planned for me
Planned for me
Beyond what I find in my wildest dreams
Wildest dreams
So I will praise You through it all
Even before the miracle
Believing when I cannot see
I know that You have good things planned for me

Infinitely greater
Than what I think is best
My future is surrendered
So today I can rest

'Cause You say I'm good enough
And worthy of Your heart
And if You hold my forever
Hope is never too far

I know that You have good things planned for me
Planned for me
Beyond what I find in my wildest dreams
Wildest dreams
So I will praise You through it all
Even before the miracle
Believing when I cannot see
I know that You have good things planned for me
Yes You do, yes You do

Oh how trustworthy
You are, You are
And oh how good to me
You are, You are

And oh how trustworthy
You are, You are
And oh how good to me
You are, You are

I know that You have good things planned for me
Planned for me
Beyond what I find in my wildest dreams
Wildest dreams
So I will praise You through it all
Even before the miracle
Believing when I cannot see
I know that You have good things planned for me

Oh You are trustworthy
I know that You have good things planned for me
