

# Boy

Tasmin Archer

There must be some enchanted place we belong  
Where every move we make would merge into one

But when we dance I'm alone  
When we dance I'm alone boy  
Among the alibis we walked hand in hand  
Into an avalanche of dreams and demands

But when we dance I'm alone  
When we dance I'm alone boy  
When we dance I'm alone  
When we dance I'm alone

We've travelled so far to get where we are  
But still we're apart boy  
The space between us where we laid weighs me down  
Without the weightlessness of love I will drown

When we dance I'm alone  
When we dance I'm alone boy  
When we dance I'm alone  
When we dance I'm alone boy
