

Emergency

Tasmin Archer

The sun is out today but doesn't shine on me
I've got a lot to learn about the things I see
Couldn't live a lie even if I tried
Here below the memories I scrape up it's clear

I'm in the wrong place at the wrong time
Will you dial me 999
Emergency
I'm in the wrong place at the wrong time
Will you dial me 999
Emergency

No illusion just confusion howling down the moon
A calm air visits but it always leaves too soon
Even when I'm found feeling safe and sound
Here below the memories I scrape up it's true

I'm in the wrong place at the wrong time
Will you dial me 999
Emergency
I'm in the wrong place at the wrong time
Will you dial me 999
Emergency

Call me stupid
Call me anything you like
Pull me through it
Help me make the other side
You can see what I need

I'm under observation every move I make
I can't forget it and it's hard to face each day
If I don't shape up take a closer look
Here below the memories I scrape up it says

I'm in the wrong place at the wrong time
Will you dial me 999
Emergency
I'm in the wrong place at the wrong time
Will you dial me 999
Emergency
