

# Sedan

Tasmin Archer

When you drive by in your sedan  
Wear something beautiful  
If you try you can  
Wear something beautiful

Day investigates the night and night investigates the day  
There's no sign of reason. no no no  
Sugar up the poison 'til the bitterness begins to fade  
You won't find me feeding on your potion

When you drive by in your sedan  
Wear something beautiful  
If you try you can  
Wear something beautiful

You don't own me  
Don't control me  
You don't know me

When you drive by in your sedan  
Wear something beautiful  
If you try you can  
Wear something beautiful

Show me everything I see is everything you are  
And get all my switches to turn on  
Giving out your promise with a dollar won't get very far  
You can't buy my feelings, no no no

When you drive by in your sedan  
Wear something beautiful  
If you try you can  
Wear something beautiful

You don't own me  
Don't control me  
You don't know me
