

# Take Care

Tasmin Archer

Be careful where you put your hands  
Be careful when you make your plans  
Be careful where you lay your head  
Who knows what hides under the bed

Take care  
Take care  
Take care, yeah

Be careful with the friends you choose  
Be careful how you spread your views  
Be careful of the true intent  
The air is thick with compliments

Take care  
Take care  
Take care, yeah

Take care  
Take care  
Take care, yeah

Take care  
Take care  
Take care, yeah
