

Upside Down

Tasmin Archer

A dark cloud marches over
Lost in a lazy stride
Calls in to kill the kick inside

A long long road behind us
And on and on it goes
On with our innocence in tow

Come on connect into my world
Turn the grey into shining
If you find me defeated or hiding

Turn me upside down
Turn me upside down
Turn me upside down

There's true romance in chaos
But we're like dominoes
All falling over in a row
Come on and show me what is real
And a glimpse of inspiration
If my aim is uncertain and shaken

Turn me upside down
Turn me upside down
Turn me upside down

When I slip down tune me in
When my heart runs out
Come on and shake me from my sleep
Light the flame lost inside me
If I'm down on my knees and misguided

Turn me upside down
Turn me upside down
Turn me upside down

I need you to let me know
