

Can't Get It Out

Tate McRae

Been tryna tell you
But your ego's too loud
Been tryna find you
But you're stuck in the crowd
Been really trying for a while now
But I
I can't get it
I, I can't get it out

Oh every
Thought gets harder to say
When every single word
Gets washed away
By your ability to
Make it seem like
Life won't ever
Be a dream

Oh I've been trying
But I can't get it out
Oh I've been trying
But I can't get it out

Feel like we're closer
Then we're miles apart
Feel like we're dreaming
Then you shatter my heart
Feel like we're moving then we're back to the start

Oh I
I can't get it
I, I can't get it out
Oh every thought gets harder to say
When every single word gets washed away
By your ability to make it seem like
Life won't ever
Be a dream
Oh I've been trying but I can't get it out
Oh I've been trying but I can't get it out

Every time I feel I'm tumbling down
I fix myself
And get around
And every time
I wanna scream and shout
I feel I'm caught
And can't get out

Every thought
Get's harder to say
When every single word
Gets washed away
By your
Ability to make it seem like
Life won't ever
Be a dream
Oh I've been trying

But I can't get it out

Oh every thought gets harder to say
When every single word
Gets washed away
By your ability to
Make it seem like
Life won't ever
Be a dream

Oh I've been trying but I can't get it out

Oh I've been trying but I can't get it out
