Distant

Tate McRae

I stay away, cause there's a part of me
Knowing that I need that space to be
Create my path into the unknown
Circle and back into what means most

I keep a distance, for my own purpose
And I can tell you feel the same
The expectations and situations
Are driving me insane

And it don't matter cause I push right through
Do you understand I'm just like you?
All the doubts that I have ever had
Were never built to last, that's why were distant

For our own purpose
That's why were di- di- di-
That's why were distant

It's hard to know if these thoughts are true
If I'm drifting I'm shifting my point of view
Cause I've been told I need to separate
Get away from the crowd and carve my way

I keep a distance, for my own purpose
And I can tell you feel the same
The expectations and situations
Are driving me insane

And it don't matter cause I push right through
Do you understand I'm just like you?
All the doubts that I have ever had
Were never built to last, that's why were distant

For our own purpose
That's why were di- di- di-
That's why were distant

Distant
Distant
Distant
(Distance)

Purpose

Purpose

That's why were distant
(Distant) (distant)
For our own purpose

That's why were di- di- di-
(Distant)
(Purpose)
That's why were distant

For our own purpose
That's why were di- di di-

I keep a distance
For my own purpose
That's why were different
