

friends don't look at friends that way

Tate McRae

Run me in circles
Like you always do
Mess with me on purpose
So I'll hang on to you

I know what you mean when you act like that
But you don't know it's breaking my heart
Said that it was just never gonna happen
Then almost kissed me in the dark
Every time we talk, it just hurts so bad
Cause I don't even know what we are
I don't even know where to start
But I can play the part

We say we're friends
But I'm catching you across the room
It makes no sense
Cause we're fighting over what we do
And there's no way that I'll end up being with you
But friends don't look at friends that way
Friends don't look at friends that way

Can't even tell if
I love or hate you more
You've got me addicted
And I can't tell whose keeping score

I know what you mean when you act like that
But you don't know it's breaking my heart
Said that it was just never gonna happen
Then almost kissed me in the dark
Every time we talk it just hurts so bad
Cause I don't even know what we are
I don't even know where to start
But I can play the part

We say we're friends
But I'm catching you across the room
It makes no sense
Cause we're fighting over what we do
And there's no way that I'll end up being with you
But friends don't look at friends that way
Friends don't look at friends that way
Friends don't look at friends that way
Friends don't look at friends that way

We say we're friends
But I'm catching you across the room
It makes no sense
Cause we're fighting over what we do
And there's no way that I'll end up being with you
But friends don't look at friends that way
Friends don't look at friends that way
