

I Don't Want U

Tate McRae

I know I got you
Wrapped 'round my fingertip
Act like you don't miss me
But let's hope that you don't slip
Cause I know that you'll come back
Back like you did before
Tell me I'm stupid
But who's the one wanting more?

Just cause you lose me
Don't mean I lost you
Think you fooled me
So do what you have to
To make yourself
Better, better in your eyes
Better, better in this light
Just cause you used me
Don't mean I want you

If I'm being honest
It's all already messed up
One day I'm your focus
But how are there other girls lined up?
It's been awhile now
Since you hit up my phone
But when I pull a you on you
You just can't leave me alone

Just cause you lose me
Don't mean I lost you
Think you fooled me
So do what you have to
To make yourself
Better, better in your eyes
Better, better in your mind
Just cause you used me
Don't mean I want you
