

My Own Little World

Tate McRae

Sometimes I drift off
Into my little world
And when I'm in my world
I'm just a little girl
There's fairies and unicorns
Who carry
Those honking horns
And bury the treasures
That were lost

In my world
I don't have any troubles
The evil blows away in
Tiny little bubbles
The fun is endless
Nobody's friendless
The world around me is safe

That's why
Sometimes I drift off
Into my little world
And when I'm in my world
I'm just a little girl
There's fairies and unicorns
Who carry
Those honking horns
And bury the treasures
That were lost

I'm as free as a bird
And I'm not limited on words
I'm just in my own
Little world
My dreams are reality
There is no formality
My future is bright and secure

That's why sometimes
I drift off
Into my little world
And when I'm in my world
I'm just a little girl
There's fairies and unicorns
Who carry
Those honking horns
And bury the treasures
That were lost

You just gotta keep believing
And that's when you start achieving
You'll see the true beauty
Of life

That's why
Sometimes I drift off
Into my little world
And when I'm in my world

I'm just a little girl
