

# Vicious

Tate McRae

Baby, it stung, now it's sweet  
Watchin' you beg on your knees, oh my-y-y  
Wipe my tongue 'cross your teeth  
Just a little taste to remember me by  
I'm the ice in your glass  
I'm like the sand through your hands, oh my-y-y  
Didn't know what you had  
Gotta live with that for the rest of your life

I won't, won't lie  
Last night, I cried a little  
Now I, I'm fine  
Let you push me to the edge  
'Bout to lose my mind

Understand, it's outta your hands  
Sleep tight where you made your bed  
Last kiss, leave your lips blood-red  
Burnin' bridges, breakin' dishes  
Look, you made me somethin' vicious  
Understand, it's outta your hands  
Waste my time, better pay me respect  
Last kiss, leave your lips blood-red  
Burnin' bridges, breakin' dishes  
Look, you made me somethin' vicious

Push you right to the edge  
See you starting to sweat  
Glad you have your regrets  
Hope you feel like that till the day you die  
I'm the ice down your back  
I'm like the sand thru your hands  
Didn't know what you had  
Gotta live with that for the rest of your life

I won't, won't lie  
Last night, I cried a little  
Now I, I'm fine  
Let you push me to the edge  
'Bout to lose my mind

Understand, it's outta your hands  
Sleep tight where you made your bed  
Last kiss, leave your lips blood-red  
Burnin' bridges, breakin' dishes  
Look, you made me somethin' vicious  
Understand, it's outta your hands  
Waste my time, better pay me respect  
Last kiss, leave your lips blood-red  
Burnin' bridges, breakin' dishes  
Look, you made me somethin' vicious

I won't, won't lie  
Last night, I cried a little  
Now I, I'm fine  
Let you push me to the edge
