Tauren Wells

I remember the night back in late November
I was out in the cold, I was alone praying for answers
The storm was loud but it couldn't tell me nothin'
The fire was wild but it just left me struggling

You move in the stillness, you move in the stillness, closing the distance
Now I can feel it, now I can feel you
Your voice isn't hidden, your voice isn't hidden
I just got to listen, listen

I hear you whisper 'cause you're
Close, close, close
I hear you whisper 'cause you're
Close, close, close
I hear you whisper

I've been looking for you, tryin' to find the courage
Don't want to regret not taking the step toward my purpose
I'm wakin' up, takin' a new perspective
The night was long until I got the message

You move in the stillness, you move in the stillness, closing the distance
Now I can feel it, now I can feel you
Your voice isn't hidden, your voice isn't hidden
I just got to listen, listen

I hear you whisper 'cause you're
Close, close, close
I hear you whisper 'cause you're
Close, close, close
I hear you whisper

And I will not fear
I know you're right here
No matter where I go
I know I will never be alone
And I will not fear
I know you're right here
No matter where I go
I know I will never be alone-one (alone)
I know I will never be alone-one

I hear you whisper 'cause you're
Close, close, close
I hear you whisper 'cause you're
Close, close, close
I hear you whisper 'cause you're
Close, close, close
I hear you whisper 'cause you're
Close, close, close
I hear you whisper
