

Never Gonna Let Me Go

Tauren Wells

All my life, I've had questions
Who, what, when, where, why?
Wasting time looking for answers
Going out my mind
I wanted to see behind the scenes
But now I'm letting go
Cause the safest place that I can be
Is in your great unknown

I'm ready to chase impossible
I'm walking away from what I know
(In everything, I know)
You're never gonna let me go
I'm tearing apart my master plan
Trading it for my master's hand
(In everything, I know)
You're never gonna let me go

Let me go
You're never gonna let me go

Take me out, into Your waters
Let's get lost at sea (lost at sea)
I feel the voice of You my Father
Calm the storm in me
I'm not looking for the distant shore
Or how the story ends
My life is Yours, I'm living for
The moment that I'm in

I'm ready to chase impossible
I'm walking away from what I know
(In everything, I know)
You're never gonna let me go
I'm tearing apart my master plan
Trading it for my master's hand
(In everything, I know)
You're never gonna let me go

Oh, You're holding on to me
My life will always be
In Your hands

No, You won't let me go

I'm ready to chase impossible
I'm walking away from what I know
(In everything, I know)
You're never gonna let me go
I'm tearing apart my master plan
Trading it for my master's hand
(In everything, I know)
You're never gonna let me go

Let me go
You're never gonna let me go
