

# Keep On

Tavares

This is a song about you, baby  
You know you keep me on a high  
Don't you know your lovin' drives me crazy?  
But I don't know the reason why  
Sweet imaginary lover  
You turn me on with so much ease  
And what you do is undercover  
You know you got me in deep freeze  
So baby

Keep on doing what you're doing  
Sending chills down my spine  
Keep on doing what you do  
'Cause what you're doing, baby, I need it all the time

You were so cool when I reacted  
This mystery I can't explain  
And I see a certain kind of magic  
In everything you do and say  
I just can't get enough of your loving  
(You're the only one) Who spends the night  
And I'll do my best to keep you happy  
You give me love and I'm satisfied  
So baby

Keep on doing what you're doing  
Sending chills down my spine  
Keep on doing what you do  
'Cause what you're doing, baby, I need it all the time  
(Baby)  
Keep on doing what you're doing  
Sending chills down my spine  
Keep on doing what you do  
'Cause what you're doing, baby, I need it all the time

I just can't get enough of your loving  
(You're the only one) Who spends the night  
And I'll do my best to keep you happy  
You give your love and I'm satisfied  
So baby

Keep on doing what you're doing  
Sending chills down my spine  
Keep on doing what you do  
'Cause what you're doing, baby, I need it all the time  
(Baby)  
Keep on doing what you're doing  
Sending chills down my spine  
Keep on doing what you do  
'Cause what you're doing, baby, I need it all the time  
(Baby)  
Keep on
