

## Strangers In Dark Corners

Tavares

Strangers in dark corners  
True love in disguise  
I can't help myself, Lord, I want her  
I'm doing things against my pride

But love has come again  
To what was a lonely man  
Should I  
Just forget the joy for which she holds  
Ignore my heart, let my mind take control, and lie

Alone, we're just strangers in dark corners  
Two hearts on a lover's heart  
Four eyes staring at each other  
Desperately searching inside

Looking for a way to bring joy into their world  
Just for one night  
After going for days alone with no sleep  
Waiting for that opportunity to hide

Lord, we're just strangers  
We're just strangers, Lord, in dark corners

In love, looking for a way to bring joy into their world  
Just for one night  
After going for days alone with no sleep  
Waiting for that opportunity to hide

Lord, we're just strangers  
We're just two strangers in dark corners  
Two hearts beating fast  
We're just strangers in dark corners  
Trying to make every minute last

Lord, we're just strangers  
We're just two strangers  
Oh, in dark corners, yeah
