

# Saffron

Taxiride

Turn around take a picture  
Now your part of the A-team  
It means nothing at all  
It means nothing your  
Best friends, bad habits  
Now he's got a mercedes  
I know that it's crazy  
Is this the way that your life was meant to be?

Chorus:

Everything you know has come undone  
A Saffron Lie  
You let it get you and now it's gone  
Cant get by on a Saffron lie  
Hot or cold, ive been told  
That your kind of amazing  
But it just doesnt't faze me  
I just let it slide  
On a roll lost control  
When you told me that you'd be  
Falling in with the mainstream  
But you keep hanging on and on and on  
CHORUS

Solid gold now your rolled  
And you're pushing up daises  
If you don't hit the brakes then  
You'll be history  
Ex-friends hard habits  
Now he's f\*cking your lady  
I know that it's crazy  
But it keeps going on and on and on  
CHORUS

In a world that's moving on too fast
