

Act Right

Tayla Parx

Our elbows all on the table
We deep in negotiation
Cause baby ain't no debatin'
What this could be
I read your terms and conditions
Signature, on my revisions
That means I got your permission
And we agree

That I'll do it right, I will
Let's make make make make make a deal
I'll do it right, I will
If you do me right, I will
Make sure that I got my act right
Cause you got that act right
Make sure that I got my act right
Cause you got that act right
And it's a pleasure doin' business with you
Said it's a pleasure doin' business with you

I'm down to make a commitment
I'm tryna go into business
You got the drive and the vision
I got the plan
You gon' be my best investment
Give you my time and my effort
'Long as we keep it professional
Understand

That I'll do it right, I will
Let's make make make make make a deal
If you do me right, I will
You do me right, I will
Make sure that I got my act right
Cause you got that act right
Make sure that I got my act right
Cause you got that act right
And it's a pleasure doin' business with you
Said it's a pleasure doin' business with you

Make sure that I got my act right
Cause you got that act right
Make sure that I got my act right
Cause you got that act right
And it's a pleasure doin' business with you
Said it's a pleasure doin' business with you
