

Dance Alone

Tayla Parx

Left hand up, right hand on the bible
You walked in I was dead on arrival
My heart and head playin' tricks, bein' rivals, hey
Tryna move on but I'm stuck in a cycle, hey, hey, hey

'Cause I don't want nobody unless that somebody is you
If I had anybody I would want somebody like you
And I know that we shouldn't, but I know there's worse we could
do
I don't wanna, I don't wanna

I don't wanna dance alone
I don't wanna dance alone
I'm not ready to go home
Not until the lights come on
So meet me right here
Meet me right here
Meet me right here
Meet me right here

Left foot, right, two-steppin' on a high note, hey
The room keep spinnin' from a message in a bottle
Disco lights really bring out your eyes
Whatever the rhythm, we always on tempo, hey

'Cause I don't want nobody unless that somebody is you
If I had anybody I would want somebody like you
And I know that we shouldn't, but I know there's worse we could
do
I don't wanna, I don't wanna

I don't wanna dance alone
I don't wanna dance alone
I'm not ready to go home
Not until the lights come on
So meet me right here
Meet me right here
Meet me right here
Meet me right here
