

Easy

Tayla Parx

I'd give my right arm and my last, you wouldn't give me half of that

In return, that's too bad

You party on, you live your life while I pretend that I'm alright

I'm okay, I'm alright

I thought that we would both regret

All the stupid shit we said

And laugh it off as we go back to bed

Thought there'd be a late night text

Askin' me where I've been at

This should be harder for you

But, baby, instead

You make it look easy, way too damn easy

Ooh, like you don't even have to try

You make it look easy, baby, just teach me

Ooh, how you get to sleep every night

'Cause for me, it's not easy, easy, easy, no

Did something click off in your brain to help you not think of my name?

Wish I could say the same

I tried to go out to a bar, and soon as I stepped out my car, I left just as fast as I came

I thought I'd run into your friends

And ask 'em how you really been

And they would say you haven't been the same

But baby, look at you right now

Tearin' up the whole damn town

While I'm still here wrapped up in all my pain

You make it look easy, way too damn easy

Ooh, like you don't even have to try

You make it look easy, baby, just teach me

Ooh, how you get to sleep every night

'Cause for me, it's not easy, easy, easy, no

No, for me, it's not easy, easy, oh
