

# Nevermind

Tayla Parx

Do you ever think about me?  
And the time we  
And the song we  
Used to make out to  
Yeah, I check you like a habit  
But the old me is kinda lonely

Oh, I don't know what's going on in my head  
Maybe it's psychosomatic, don't know, I can't stand it  
The dent you left is hard to forget  
'Cause I got memory foam in my bed  
Sleeping with the words I ain't said, oh I

Still think about it sometimes  
The life that we left behind  
I almost called to say I  
Never mind, never mind, never mind, never mind  
I know there's no rewind  
One drink and I'm thinking twice  
I almost called to say I  
Never mind, never mind, never mind, never mind  
Never mind, never mind, never mind, never mind

I been out here going crazy  
My emotions  
Get the most of me  
Every now and then  
But lately I can finally say you don't mean everything  
But I still got a ways to where you don't mean nothing at all to me

Oh, I don't know what's going on in my head  
Maybe it's psychosomatic, don't know, I can't stand it  
The dent you left is hard to forget  
'Cause I got memory foam in my bed  
Sleeping with the words I ain't said, oh I

Still think about it sometimes  
The life that we left behind  
I almost called to say I  
Never mind, never mind, never mind, never mind  
I know there's no rewind  
One drink and I'm thinking twice  
I almost called to say I  
Never mind, never mind, never mind, never mind  
Never mind, never mind, never mind, never mind  
Never mind, never mind, never mind, never mind  
Never mind, never mind, never mind, never mind
