

Selective Memories

Tayla Parx

I don't remember fighting in Hawaii
Or how you left me crying in the lobby
With nothing but your T-shirt on my body
And you didn't mind
You didn't mind
I remember sunsets in Hawaii
Fucking in the bathroom of the lobby
The way you ripped your T-shirt off my body
And I didn't mind
I didn't mind

Rewind me up
So I don't forget why I up and left
Baby please remind me of
The mess you made of me
Cause I only see
What I wanna see in these
Selective memories
Can't trust these
Selective memories

I remember drivin' through the canyons
We ran out of gas and we were stranded
We got so high your lap is where I landed
And I didn't mind
I didn't mind
I don't remember screaming through the canyons
Kicked ya out my car and left you stranded
In somebody else's bed is where you landed
So you didn't mind
Baby please

Rewind me up
So I don't forget why I up and left
Baby please remind me of
The mess you made of me
Cause I only see
What I wanna see in these
Selective memories
Can't trust these
Selective memories

Selective memories
Can't trust these
Selective memories

Baby please rewind me up
So I don't forget why I up and left
Baby please remind me of
The mess you made of me
Cause I only see
What I wanna see in these
Selective memories
Can't trust these
Selective memories
