

Backfired

Taylor Acorn

We said, we said goodbye and it backfired
Too late, too late to try cause it backfired
Ashes to ashes, don't know what happened
We said, we said goodbye and it backfired

Kiss my lips like a loaded gun
I ain't got nowhere to run, I can't get you out of my system
Red Door late when I saw your face
Hit me like a ricochet, can I be your bad decision?

Oh don't gotta be so cold
It's taken me so long to get over you, to get over you
Are we lying, are we lying if

We said, we said goodbye and it backfired
Too late, too late to try cause it backfired
Ashes to ashes, don't know what happened
We said, we said goodbye and it backfired

Oh no
We both got burned but we can't let go
Should have known better than to get this close
It's sad though
You're turning me into a psycho
Now we're stuck in a vicious cycle
Used to get me high now we're so low

Oh don't gotta be so cold
It's taken me so long to get over you, to get over you
Are we lying, are we lying if

We said, we said goodbye and it backfired
Too late, too late to try cause it backfired
Ashes to ashes, don't know what happened
We said, we said goodbye and it backfired

Oh don't gotta be so cold
It's taken me so long to get over you
And it backfired
