

Famous Last Words

Taylor Acorn

Suburb street with the headlights off
Discreet when he picked her up
Had it all planned out like a movie heist
Never seen the backseat of his Pontiac
She was on a mission to change that
Tired of being tagged as the innocent type
He turned the music down and she whispered

Her famous last words
Wave goodbye to her
There's nothing you can say
She's gotta learn it the hard way
Catch her on the other side
When she comes back to life
Yeah, she's gonna find in time
That love fucking hurts
And you can't reverse
Famous last words

Twenty-six, all her friends have rings
She's got her mind made up, she thinks
She's cursed, she won't find the one
So when the midnight text rolls in
She knows he's nothing but toxic
But it's better back to him than being alone
And so she types

Her famous last words
Wave goodbye to her
There's nothing you can say
She's gotta learn it the hard way
Catch her on the other side
When she comes back to life
Yeah, she's gonna find in time
That love fucking hurts
And you can't reverse
Famous last words
Ohh-oohh

Love fucking hurts
Knocks her on her knees
But she'll brace the fall even if it means

Famous last words
Wave goodbye to her
There's nothing you can say
She's gotta learn it the hard way
Catch her on the other side
When she comes back to life
Yeah, she's gonna find in time
Love fucking hurts
And you can't reverse
