

Without You

Taylor Acorn

Save it

Save your words, don't need no explanation

Why I saw you leave with her

There's a thin line between wrong and right

And right now I just need some time

With Jim Beam, these neon lights, and that six string

You only want me when you're lonely and you're lonely tonight

So don't tell me you need me just 'cause she ain't on your mind

You won't play me for a fool, I'm seeing right through your lie

s

And I'll be fine without you

I've seen it

I've seen your kind

You really think I'd be so dumb to let you walk back in my life

I'll be living big on that big screen, you'll be crying out for
me

Hope she was worth it after all

You only want me when you're lonely and you're lonely tonight

So don't tell me you need me just 'cause she ain't on your mind

You won't play me for a fool, I'm seeing right through your lie

s

And I'll be fine without you

Without you

Without you

You only want me when you're lonely and you're lonely tonight

So don't tell me you need me just 'cause she ain't on your mind

Don't play me for a fool, I'm seeing right through your lies

And I'll be, I'll be, I'll be, yeah

You only want me when you're lonely and you're lonely tonight

So don't tell me you need me just 'cause she ain't on your mind

You won't play me for a fool, I'm seeing right through your lie

s

And I'll be fine without you
