

Pharmacy

Taylor Austin Dye

Trading jack for a little white cap on an orange bottle
Self medicatin' ain't cuttin' it lately need somethin' stronger
Doctor said I'm just depressed, avoid the things that cause me
stress
I might feel some side effects
But that's a risk I'll take

It'll take more than a prescription to fill what I've been miss
ing
Just tryin' to get my fix in, one dose at a time
You got me hooked even though it hurts
Strung out on everything we were
Ain't no remedy to undo what you did to me
I'm gonna need the whole damn pharmacy
I'm gonna need the whole damn pharmacy

Eyes are red at the CVS
And my heart's a racing
Trouble breathing now I'm here feigning
For the rush you gave me
Man behind the counter says
To only take it as directed
I can't lie you know I'm tempted
To take the whole damn thing

It'll take more than a prescription to fill what I've been miss
ing
Just tryin' to get my fix in, one dose at a time
You got me hooked even though it hurts
Strung out on everything we were
Ain't no remedy to undo what you did to me
I'm gonna need the whole damn pharmacy
I'm gonna need the whole damn pharmacy

If I'm numb it's only temporary

It'll take more than a prescription to fill what I've been miss
ing
Just tryin' to get my fix in, one dose at a time
You got me hooked even though it hurts
Strung out on everything we were
Ain't no remedy to undo what you did to me
I'm gonna need the whole damn pharmacy

I'm gonna need it
I'm gonna need it
I'm gonna need the whole damn pharmacy
