

# Don't Wait Up

**Taylor Bennett**

When the sun comes down  
Don't wait up  
Movie stars won't wait for us  
So it's all in the dust  
Our first kiss  
But what about dreams and happiness  
Is it all at risk?  
Well how 'bout this  
Are there things that I should miss?  
Got me stuck in a glitch  
I can't fix  
For dreams and happiness

When the sun comes down  
I don't wait up  
Spent too many nights trying to wait on love  
Or should I hit folks at the club I know they're making some noise  
Man, I love my boys  
The only line left to call before my mama for hugs  
Always seen ya picture perfect that's what modeling does  
I always thought we move to LA so it's all in the dust  
For a new screen cut  
When the sun comes up  
But what about love and happiness?

When the sun comes down  
Don't wait up  
Movie stars won't wait for us  
So it's all in the dust  
Our first kiss  
But what about dreams and happiness  
Is it all at risk?  
Well how 'bout this  
Are there things that I should miss?  
Got me stuck in a glitch  
I can't fix  
For dreams and happiness

(Ugh) Shout out the static that went ghost in respect to my BM  
Not trying to have me creeping like TLC on the weekends  
Or TMZ in their DMs and tryna peep my recents  
I know they got their problems but I got a thousand reasons  
Run away from the media, Wikipedia  
Feel like they all misleading ya  
Even when we're believers  
Of superhero Hysteria  
Turning up Uber Radios  
Voting for Democrats  
Smoking weed to relax  
These are known to be fax  
We ain't trying to be fox  
Everything we don' lost  
This is all that we got  
A mix of Pop and Hip-Hop  
Whatever to fit the box  
Ones that idiots watch  
All in a paradox

Sounding like paradise  
Still can't take my own advice  
Drop and roll towards the light  
This Rock N Roll shit for life  
The sun is always outside  
And us stars are just on the rise  
We just trying to get high  
No disguise when we in the sky  
(Don't wake up)

When the sun comes down  
Don't wait up  
Movie stars won't wait for us  
So it's all in the dust  
Our first kiss  
But what about dreams and happiness  
Is it all at risk?  
Well how 'bout this  
Are there things that I should miss?  
Got me stuck in a glitch  
I can't fix  
For dreams and happiness

I didn't even know my name  
I didn't even know my way home  
Been drinking night and day  
Like that's gonna bring you back home  
Like that's gonna change your mind  
Like that's gonna help you find a way  
To forgive me  
Or maybe even get back with me

When the sun comes down  
Don't wait up  
Movie stars won't wait for us  
So it's all in the dust  
Our first kiss  
But what about dreams and happiness  
Is it all at risk?  
Well how 'bout this  
Are there things that I should miss?  
Got me stuck in a glitch  
I can't fix  
For dreams and happiness
