

Easy Outside

Taylor Bennett

Jake

Bitches love Steezefield

Grab my blick and roll my wood, throw on some bape

I'm on my way

I cannot lack on interstates

They know my face in different states

But bro, don't get your feelings hurt

My block really gon' put in work

Kickin' doors and go berserk

Sobered up, don't need a ...

I get paid to party, smoke my weed and then I work out

When I'm in the whip I got the Juice WRLD turned loud

Huh

For folks nem we won't turn down

Uh

I'm talkin' vegan shakes, Mercedes Benz

Me and her and all her friends

Bike rides and high rises

And sun visors

Let's take a swim

I flow from deep within

Bitch, let's hit Lake Michigan

Yeah

Fuck some bands Ima' fuck her friends

Yeah

Seems like everything's easy outside

Your boy's back in town with a bleezy, let's ride

Summertime makes the dancing alright

You don't even have to believe me, just try

Seems like everything's easy outside

Your boy's back in town with a bleezy, let's ride

Summertime makes the dancing alright

You don't even have to believe me, just try

Stacy now you know your mom and me got something going on

Speakers knocking, Speaker Knockerz, my life's just like Rico's song

Wasn't here for 1985 but I'll still sing along

Freddie Mercury x Marvin Gaye, girl let's just get along and get it on

Smokin' on that purple circle strain and that shit was strong

Remember when she said I won't be big as Chance? That chick was wrong

Yachty, KYLE, Thugger, I got hella' songs, hit songs

No deal, fo' real, I'm rich, shit and I'm so young

Smokin' catpiss, Yellow fists

Diamonds in my ears, I'm a misfit, got you big pissed

Lil' bitch, now I'm big shit, used to flip shit

Kickflips, how I flip scripts, this the best wish

Seems like everything's easy outside

Your boy's back in town with a bleezy, let's ride

Summertime makes the dancing alright

You don't even have to believe me, just try

Seems like everything's easy outside (just try)

Your boy's back in town with a bleezy, let's ride (just try)

Summertime makes the dancing alright (just try)

You don't even have to believe me, just try

And now I see you as something I've outgrown
That's why you left me those pictures on my phone
Can't believe you and now I'm all alone
I don't need you I'm never comin' home
I'm never comin' home
Lately, I'm alone in this place like I'm out of time
Way that she was throwing that dagger, that shit was out of line
I do not remember this face and I got an alibi
Treat me like a knife through the heart
You're My Bloody Valentine
Oh
Never comin' home, I'm never comin' home

Seems like everything's easy outside
Your boy's back in town with a bleezy, let's ride
Summertime makes the dancing alright
You don't even have to believe me, just try
Seems like everything's easy outside (just try)
Your boy's back in town with a bleezy, let's ride (just try)
Summertime makes the dancing alright (just try)
You don't even have to believe me, just try
