

Fall Short

Taylor Bennett

(You're all the way out here how'd you get out here
I'm headed right up the stairs!
Let's get one thing clear, I'm on my way out there
How'd you get out there!)

I'll fall right there
So yeah, yeah, yeah, yeah
(Let's get one thing clear, I'm on my way out there
I'm headed straight up the stairs!)

Yeah, yeah, yeah, yeah
I'll fall right there
Cause you know, he knows, she knows, I know nothing compares...
Set out your wings and fly you needed air
And I know, you know, I know
Nothing compares
Come out the water screaming I needed air
And you know, I know, you know nothing compares

I thought that I'd never wake up
When you said "look at the sun"
There's bass in my ear drums
You was born to have fun love me more than you wanna
I know I'm stuck in the moment
But we could live in a coma
And pray we never wake up
We were kids just kids you know
(The kids just a kid, he don't know...)
But like kids must live and grow
(Kids must live and grow!)

But I spent my last sense on you!
When its not much more left to do!
Turn my back and fall into!
You, you...
(Don't turn that flight around, right around now
How bout you mind your business)

Yeah, yeah, yeah, yeah
I'll fall right there (I'll fall right there!)

Cause you know, he knows, she knows, I know nothing compares...
(You know that nothing compares!)

Set out your wings (my wings) and fly
You needed air (you needed air!)

And I know, you know, I know
Nothing compares (you know that nothing compares!)

Come out the water screaming I needed air (I needed air!)

And you know, I know, you know nothing compares (you know that nothing compares)

I thought that you couldn't love me thought that you thought I was ugly
I don't put nothing above me probably think everything's lovely
How could you like me or touch me, how could you kiss me or hug me
Knowing that I do not love me, you make me, you make me
(The best days lost in the summer days)

You make me nervous in public when they images of you
Look perfect but you far from it these magazines don't know nothing
I should of listened to mama, she told me stay away from drama
Now I wan' swerve with the llama deserve to feel some more trauma

(You don't know!) cool boy you got something coming
Us stupid kids don't know nothing
(I needed my! you needed your) till I come with the choppa
That smooth smoke no know rasta
(We needed our space to grow!) I'm gon' squeeze it for no reason
Make ya face change like the seasons
(So if you love me then)
Remember me when you sleeping
Nothing compares to you dreaming
(So if you love me, then let me go!)

Yeah, yeah, yeah, yeah
I'll fall right there (I'll fall right there!)
Cause you know, he knows, she knows, I know nothing compares...
(Nothing compares to you girl!)
Set out your wings (my wings) and fly
You needed air (you needed air!)
And I know, you know, I know
Nothing compares (nothing compares to you girl!)
Come out the water screaming I needed air
And you know, I know, you know nothing compares
