I got bitches that got bitches and them bitches like me
I know niggas that don't even know me and don't like me
I know killers that turn police but we call it icy
You can ice skate on my liver cause that bitch so icy
Your baby momma told me your son said he wanna be just like me
Keep that between us, don't tell her I told you cause she'd be mad at me
Went out the country, did some shows, left with my pockets heavy
They say they [?] me with them rockets ready
My name is Louie but for some reason they call me Tony
I don't got no love for these hoes because they fucked the homies
These niggas see me wanna be me bunch of fucking phonies
All these damn mini-mes, when did I start cloning?

I fuck with bitches that got bitches, that's more bitches for me
I know some niggas got some issues cause they women love me
Pay no attention, money ain't spending your girl bought it for me
And at the end, and at the end, she was just taking the D

Whatcha like when the lights go down? Do you blindside make you black out?
White friends, minivans, skinny pants, belly dance, anywhere
But tonight she gon' act out
Got a daddy you wanna sell for the count
Black cars, black guys, she gone really black out
Then we drink on her credit card until she max out
She ain't into saving money but her friend is here to shop
I wanna get to know your friend a little better
And the friend she said she brought along with her
And one of them girls claimed I slept with her
And she lying but I'm gon' get her to admit that I'm the idol that's on her poster
Drunk bottle swinging and singing that Imma toast ya
Shout out to Chi with no gun inside of my holster
We running out of tequila her favorite drink is mimosa

This close to growing out her hair until she got into with her parents
Cut it all off now she look like Cisco
