

No One Outside

Taylor Bennett

Ooh

I know, I know you don't like to watch me play Nintendo Switch
So I'ma switch it up and make you an exquisite dish
She from the Low End like the ship sinkin', I'm Leonardo
She know me from the rap game, only 'cause I half bang, and I used to run th
em corners
Hot summers with an eighth up on us
Oak Street beach, no photos
Young kids ain't never gon' grow up
'Fore I had me a self or a logo
And I ain't even know me, you a showboat
I'ma go buy you a Volvo
Like my mama had before though
Just so we could take the photo
You the best type of mom, should've taken you to prom
Back when I couldn't dance, just so we could hold hands
Teenage romance, probably slow dance
Before the cam and the Benz
So you can show me who I am
And I can be myself again
We shootin' shots like pretend
Tryna live like Jim and Pam
I'ma work for Charlie, he gon' work for you
And it's gon' work out in the end
I'm just eager to begin
Knowin' you're my best friend
Knowin' you're my best friend, yeah

Today, I'll say hooray as I lay on a church night
Who said we can't live life like it's no one outside?
Today, I'll say hooray as I lay on a church night
Who said we can't live life like it's no one outside?

She don't know colors and bright lights (No)
Just shade and clutter in her life (No)
These walls just know me all too well
I don't even know myself, can you just show me that you care?
These walls just know me all too well
I don't even know myself, can you just show me that you care?
(She told me, she told 'em
She told me, she told 'em)

I need paternity leave, I should be burnin' the weed
I got a hundred degrees while I was learnin' to read
I spent eternity free, I Timmy Turner the three
I done got so many rings, I'm finna turn to a tree
Ain't no returnin' the ring, I am the Lord of the Flies
I had some more on the side just like an order of fries
Wasn't recorded alive, I need to sort of revise
Guess I could sort of surmise, whether I'm dead or alive
Up in the morning, I rise, back in the black enterprise
Don't wanna clock in at 9, don't wanna tap in at 5
I know she put in the work, I know she tryin' her best
She know that I do the rest, I know she tryin' to rest
I'ma take one for the team, she gon' take us to the dream
I got a trust in this thing, please don't let us intervene

She is the root of the tree, she's always who it would be
She is the fruit of the heart, she was approved by the gods, yeah

Today, I'll say hooray as I lay on a church night
Who said we can't live life like it's no one outside?
Today, I'll say hooray as I lay on a church night
Who said we can't live life like it's no one outside?
