

You

Taylor Bennett

Hi, your name is YOU
I want to hold ya, want to teach ya, want to love ya
I'm what makes you move
Energy like wind and thunder
It's that gangster groove
I'ma show you how to make that money
That ain't major news
Even though we getting paper like Sundays
No work holidays, no need to cool off
Spa trips, flawless days, girl Hallelujah
I could break the weather with records, now who could do that
I could make that effort to get ya, and I'ma do that

Hi, your name is YOU
You love Broadway too
I am from the east
And you just might make me move
So hop right on this track
Hop right on this track
Hop right on this track
Because the subway runs all night

Hi, your name is YOU
I want to greet ya, want to meet ya, want to hug ya
I'm what makes you cool
Below 30 ya freeze and ice under
Cracked ice breaks for you
Sleet, slide, slip, slow and stumbled
I might make that move
With a trip that's like going into London
But back to reality, you're looking too bad
You could feel my accuracy, and I'ma shoot that
You could see the cash in me, and you abuse that
But I could see the want in you and I amuse that

Hi, your name is YOU
You love Broadway too
I am from the east
And you just might make me move
So hop right on this track
Hop right on this track
Hop right on this track
Because the subway runs all night

Baby, let's take this whole thing to the moon
Blast off, take off, make up, make out, make amends
Let's take this whole thing to the moon
Blast off, take off, make up, make out, make amends
(Dream about this night when I'm alone)
Stars are bright, the drinks are cold
So many things, you've never told, anyone
Feel special, I'm the one
Who has your heart, lend an ear
Girl I remember, when we met, it was

Hi, your name is YOU
You love Broadway too

I am from the east
And you just might make me move
So hop right on this track
Hop right on this track
Hop right on this track
Because the subway runs all night
