

Sunshine

Taylor Hawkins & The Coattail Riders

Sunshine

It's not time to get lost
On the close line
On that stair you've crossed

I wish you'd seen the letter that was written in my head
Sunshine don't know better
I think sunshine's in the red

You think it's right to say it's all
It's all you really need to know
If you're still waiting by the wall
It don't take nothing to let it go

Nowhere

Nowhere's called a place
Somewhere
Somewhere means this place

I wish I'd seen the faces as they danced right through the door
Sunshine don't know better
I think sunshine needs some more

You think it's right to say it's all
It's all you really need to know
If you're still waiting by the wall
It don't take nothing to let it go
